Github: tnmyk

Fullstack Web-developer and Computer Science student (8.5 GPA) currently enrolled in Vellore Institute of Technology. Aiming to leverage my creativity, critical thinking and problem-solving skills to create better products. I also love open-source.

Skills

→ React.js / Next.js

→ Typescript

→ Firebase/MongoDB

→ PostgreSQL + Prisma

→ Chakra UI + TailwindCSS

→ Socket.io

→ JS, HTML, CSS etc

I have also worked with Redux, C++, python.

Education

VIT, Bhopal

Computer Science (Core)

2020 — 2024

IV Semester, 8.5 GPA

Kendriya Vidyalaya No.2 , Jammu

XII from
CBSE

2019 — 2020

PCM, 95%

Work experience

Spacenos

Web Developer Intern
December, 2021 — Present

Working on their web app codebase mainly using React.js,Redux , Firebase, serverless functions. Handled the authentication using Firebase Auth and used Firestore as database.

Protégé

Web Developer Intern
September, 2021 — November, 2021

I worked on their web app mainly using React.js and Firebase. Handled the authentication, chatting, database read/writes and many other features of the webapp.

Projects

Live Public Chatrooms

Set your username and chat with multiple online users and create your own chatrooms and share images. Made Using React.js, Web sockets (Socket.io), express ,Chakra UI etc.

Github link

Learn DSA (Web App)

→ Used Vis.js, Next.js (to handle large number of pages), React.js, Chakra UI. Designed the graphics to make topics feel visual. Renders '.md' pages.

→ Keep track of your DSA progress with topic Checklist. Learn from regularly added content.
